Introduction

To the student

This book has been written to help you learn new vocabulary. You already know a large number of English words, but to express yourself more fully and in a more sophisticated way at the upper-intermediate level, you will ideally need about 4,000 words, so increasing your vocabulary is very important for your general progress in English. In this book, there are over 2,500 new words and phrases for you to learn. You will find them on the left-hand page of each unit. Every new word or phrase is used in a sentence, or in a conversation, or is in a table, or has a picture with it, or has some explanation of what it means. On the right-hand page there are exercises and other activities to help you practise using the words and to help you to remember them. The book has been written so that you can use it yourself, without a teacher. You can do the units in any order you like, but we believe it is a good idea if you do Units 1 to 4 first, as they will help you to work with the rest of the book in the best possible way.

The **Answer key** at the end of the book is for you to check your answers to the exercises after you do them. The Answer key sometimes has more than one answer. This is because often there is not just one correct way of saying something. Where you are asked to talk about yourself, in the **Over to you** exercises, we do not generally provide answers, since this is your opportunity to work completely independently and in a very personal way, so everyone's answers will be very different.

The **Index** at the end of the book has all the important words and phrases from the left-hand pages. The Index also tells you how to pronounce words. There is a table of phonemic symbols to help you understand the pronunciation on page 258.

You should also have a dictionary with you when you use the book. You can use a paper dictionary or an electronic one, or you can go to Cambridge Dictionaries Online at <http://dictionary.cambridge.org>. Access to a dictionary is useful because sometimes you may want to check the meaning of something, or find a word in your own language to help you remember the English word. Sometimes, you will also need a dictionary for the exercises; we tell you when this is so.

To learn a lot of vocabulary, you have to do two things:

- 1** Study each unit of the book carefully and do all the exercises. Check your answers in the Answer key. Repeat the units after a month, and then again after three months, and see how much you have learnt and how much you have forgotten.
- 2** Develop ways of your own to study and learn new words and phrases which are not in this book. For example, every time you see or hear an interesting phrase, write it in a notebook, and write who said it or wrote it, and in what situation, as well as what it means. Making notes of the situations words are used in will help you to remember them and to use them at the right moment.

We hope you like this book. When you have finished it, you can go to the next book in the series, *English Vocabulary in Use Advanced*. Along with this book, you can also use the more specialised titles: *English Idioms in Use*, *English Phrasal Verbs in Use* and *English Collocations in Use*, all of which are available at intermediate and advanced levels.

To the teacher

This book can be used in class or as a self-study book. It is intended to take learners from a lower-intermediate level of vocabulary to an upper-intermediate level. The vocabulary has been chosen for its usefulness in everyday situations, and we consulted the Cambridge International Corpus (now known as the Cambridge English Corpus), a written and spoken corpus of present-day English, including a huge learner corpus, to help us decide on the words and phrases to be included for students at B2 (CEFR) level. The new vocabulary (on average 25–30 items per unit) is presented with illustrations and explanations on the left-hand page, and there are exercises and activities on the right-hand page. There is an Answer key and an Index with pronunciation for the target vocabulary. The Answer key at the end of the book is for students to check their answers to the exercises after they do them.

The book focuses not just on single words, but on useful phrases and collocations, and the vocabulary is illustrated in natural contexts. The book is organised around everyday topics, but also has units devoted to basic concepts such as time, number and movement, linking words, word formation, multi-word expressions, pronunciation and varieties and style, as well as a set of initial units concerned with ways of learning vocabulary. Typical errors are indicated where appropriate, based on information from the Cambridge Learner Corpus, and the most typical meanings and uses are focused on for each item. The units in the book can be used in any order you like, but we would advise doing the initial units (Units 1 to 4) first, as these lay the foundations for the rest of the book.

The right-hand pages offer a variety of different types of activities, with some traditional ones such as gap-filling, but also more open-ended ones and personalised activities which enable learners to talk about their own lives. Although the activities and exercises are designed for self-study, they can easily be adapted for pairwork, groupwork or whole-class activities in the usual way. The Answer key sometimes gives alternative answers to the exercises. This is because often there is not just one correct way of saying something. Where students are asked to talk about themselves, in the **Over to you** exercises, we do not generally provide answers, since these exercises give learners the opportunity to work completely independently and in a very personal way, so everyone's answers will be very different.

When the learners have worked through a group of units, it is a good idea to repeat some of the work (for example, the exercises) and to expand on the meaning and use of key words and phrases by extra discussion in class, and find other examples of the key items in other texts and situations. This can be done at intervals of one to three months after first working on a unit. This is important, since it is usually the case that learners need five to seven exposures to a word or phrase before they can really begin to know it, and no single book can do enough to ensure that words are always learnt first time.

When your students have finished all the units in this book, they will be ready to move on to the higher-level books in this series: *English Vocabulary in Use Advanced*, and the advanced levels of *English Idioms in Use*, *English Phrasal Verbs in Use* and *English Collocations in Use*, by the same authors as this book.

We hope you enjoy using the book.

Learning vocabulary

A

What do you need to learn?

Did you know that there are over half a million words in English but that the average native speaker only uses about 5,000 in everyday speech? You already know many of those 5,000 words. This book will help you to learn many of those that you do not yet know and it will help you to use them appropriately and accurately.

B

What does knowing a new word mean?

It is not enough just to know the meaning of a word. You also need to know:

- which words it is usually used with;
- its grammatical characteristics;
- how it is pronounced;
- whether it is formal, informal or neutral.

So when you learn a word you should make sure that you:

- Learn new words in phrases not in isolation.
- Notice how words commonly go together. These are called **collocations** and include:
 - adjectives + nouns, e.g. *rich vocabulary, classical music, common sense*;
 - verbs + nouns, e.g. *to express an opinion, to take sides*;
 - nouns in phrases, e.g. *in touch with, a train set, a sense of humour*;
 - words + prepositions, e.g. *at a loss for words, in particular*.
- Notice special grammatical characteristics of new words. For example, note irregular verbs, e.g. *undertake, undertook, undertaken*; uncountable nouns, e.g. *luggage*; or nouns that are only used in the plural, e.g. *scissors*.
- Notice any special pronunciation problems with new words.
- Check if the word is particularly formal or informal in character, in other words if it has a particular register.

C

How can you help yourself to memorise words?

Research suggests that some students find it easier to learn words if they (a) learn them in groups and (b) make use of pictures, as shown here.

You can group words in any way you like – topic, grammatical feature, word root, and so on. The unit titles in this book might give you some ideas.

D

How can you help yourself learn more words?

This book will help you to learn vocabulary in a systematic way. However, you can also help yourself to learn more words and expressions by reading and listening to as much English as possible. Here are some ideas about things you can read or listen to:

Exercises

1.1 Here are some aspects of grammar to be aware of when learning new vocabulary. Give two examples of words that reflect this aspect of grammar.

- 1 a noun only used in the plural *scissors*
- 2 an uncountable noun
- 3 an irregular verb
- 4 a noun with an irregular plural

1.2 What aspect of pronunciation should you notice about the following words?

- | | | |
|--|------------------------|--|
| 1 subtle <i>the b is silent (not pronounced)</i> | 3 chemistry | 6 photograph / photographer / photographic |
| 2 catastrophe | 4 answer | |
| | 5 a record / to record | |

1.3 Read the text. Use words from the box to complete each 'collocations fork'.

English has a remarkable range of words. Thanks to periods of contact with foreign languages and its readiness to coin new words out of old elements, English has a particularly large vocabulary. For example, as well as *kingly* (from Anglo-Saxon) we find *royal* (from French) and *regal* (from Latin). There are many such sets of words, which make it possible to express subtle shades of meaning.

coincidence	difference	family	likeness	palace	a phrase
range	shade	suggestion	a term	welcome	new words

- | | | | |
|-----------------------------|---------------------------|------------------------------|------------------|
| 1 a remarkable <i>range</i> | 2 to coin <i>likeness</i> | 3 a royal <i>coincidence</i> | 4 a subtle |
|-----------------------------|---------------------------|------------------------------|------------------|

1.4 Write *i* by the words that are informal and *f* by those that are formal.

- | | | |
|-----------------------|--------------------------------|------------------------|
| 1 guys <i>i</i> | 4 to alight (from a bus) | 7 to bug someone |
| 2 a minor | 5 to feel gutted | 8 to zone out |
| 3 Awesome! | 6 a felon | |

1.5 A student learnt each of these sets of words as a group. What is the unifying factor for each group? Can you add one more word to each group?

- 1 king, queen, prince, princess *royalty - duke*
- 2 sunshade, shady, shadow, shade, to shadow, shadowy
- 3 articulate, communicate, convey, express, put across
- 4 noun, verb, adjective, adverb
- 5 subtle, comb, lamb, crumb, debt, plumber

1.6 Draw a picture to help you remember each of the following vocabulary items.

- | | | | |
|----------|---------------------|---------------|-----------|
| 1 circle | 2 to coin new words | 3 screwdriver | 4 to drip |
|----------|---------------------|---------------|-----------|

1.7 Over to you

Look at the suggestions in D. Can you think of any other ideas to add to the list? Think about the ways of learning vocabulary that you use now, and think about ways you could use more in the future.

Organising a vocabulary notebook

A

Organising words by meaning

Try dividing your notebook into different broad sections, with sections for **words for feelings**, **words to describe places**, **words for movement**, **words for thinking**, etc.

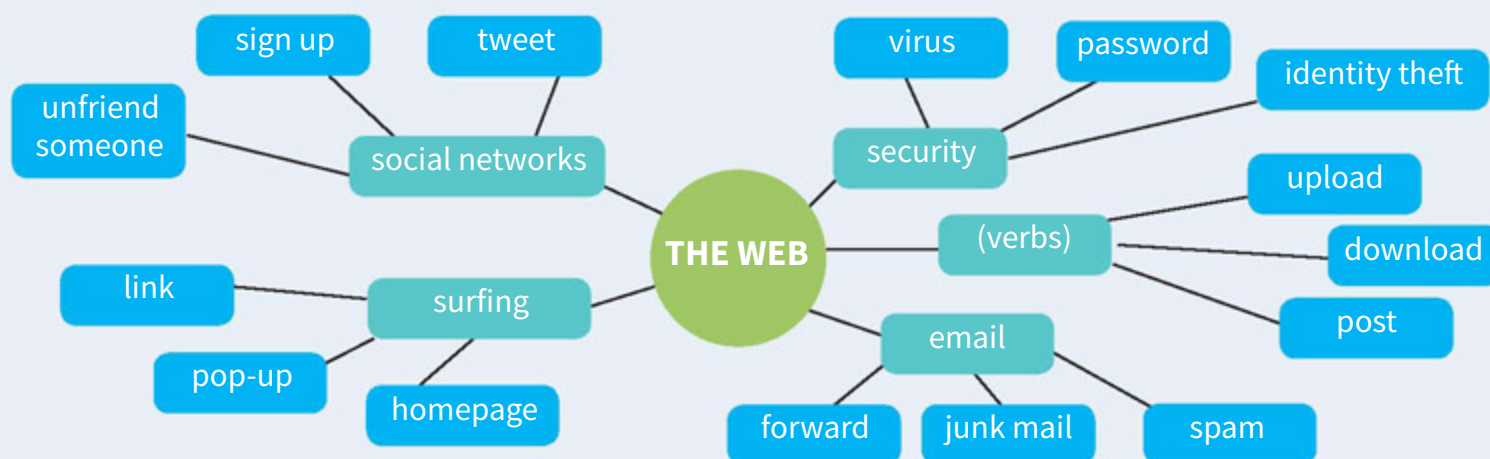

Charts and tables of various kinds can help you organise your vocabulary. Here is an example for words connected with music:

<i>Instruments</i>	<i>Types of music</i>	<i>Verbs</i>	<i>Related words</i>
<i>guitar cello piano</i>	<i>classical (not classic) folk (not folkloric) world</i>	<i>play strum (a guitar) perform</i>	<i>practice (n) practise (vb) track release (an album)</i>

B

Building networks of meaning

A network diagram is useful. It can grow in whatever direction you want it to.

C

Collocations and fixed phrases

It is important to know how a word combines with other words (its collocations). Always record the common collocations of a word as you meet them, e.g.

win (prize, award, medal) earn (money, a high salary) gain (time, an advantage)

Where a word is often used in a fixed phrase, always record the whole phrase, e.g. *in a hurry out of touch to and fro now and again*

D

Synonyms and antonyms

When you find a synonym (same meaning) or an antonym (opposite meaning) of a word you already have in your book, enter it next to that word with a few notes, e.g.

urban ≠ rural stop = cease (cease is very formal)

E

Organising by word class

Make a note of the word class of a new word (whether it is a noun, verb, adjective, etc.). Record words from the same word family together, e.g.

produce (verb or noun) product (noun) productive (adjective)

F

Stress

Record where the stress falls on a multi-syllable word, especially if the stress changes between word classes, e.g. *produce (verb) produce (noun) productive (adjective)*

Language help

Note any typical errors you make or which your teacher has mentioned.

Exercises

2.1 Organise the words into the topics below. Use a dictionary if necessary.

tabloid stress hang out with sb exhaustion podcast overwork
upload a video burnt out blogosphere journalist snowed under with work
casual acquaintance blog be close to sb count on sb be under pressure

topic	words
working too much / too hard	<i>stress</i>
friendship	
media	

2.2 Here is a list of words a learner of English made in a vocabulary notebook in class. Organise them in a more efficient way, using the chart.

rush oversleep latecomer alarm clock set a clock deep sleep fast asleep
out of breath heavy sleeper in a hurry breathless nightmare dash yawn
exhausted

nouns	verbs	adjectives	collocations	fixed phrases
<i>latecomer</i>				

2.3 Change the sentences using a synonym (S) or antonym (A) of the words in bold using words from the box.

glad spicy deprive sb of sth shot dissatisfied chilly

- I was **pleased** *glad* to hear you'd passed your exam. (S)
- I got some excellent **photos** of the Grand Canyon on my trip to the US. (S)
- She was **happy** with the conditions they offered her in the new job. (A)
- The prisoners were **supplied with** food and medical care. (A)
- I don't like **mild** curries. (A)
- It's a **cold** day today. (S)

2.4 Fill in the missing word forms. Then mark the word stress for each item.

noun	verb	adjective	person
perfection	per <u>fect</u>	per <u>fect</u>	per <u>fection</u> ist
information	inform		
politics			
economics		*	

* Give two adjectives.

2.5 Over to you

Think about your own learning style and which ways of organising vocabulary would work best for you.

Using your dictionary

A

What a good dictionary tells you: the basics

A good learners' dictionary (in book form or online) can tell you about:

- Pronunciation: this may mean learning some symbols which are different from the letters of the English alphabet.

th in thick	ð	th in then	tʃ	ch in church
sh in she	dʒ	j in jam	z	s in pleasure
ŋ	ɪ	a in bad	ɒ	o in top
or in form	ʊ	u in put		a in about
ʌ	ɪr	ir in bird		

- Word stress: often shown by a mark before the syllable to be stressed or by underlining or bold type, e.g. /əd'ventʃə/, /**w**estən/, **comp**licated.
- Usage: how a word is used and any special grammatical pattern that goes with it, e.g. **suggest** + clause (not an infinitive) – *I suggest **you ring her** right away.* (NOT *I suggest you ~~to ring her~~ right away.*)

B

Additional information

- Synonyms (words of similar meaning) and antonyms (opposites), e.g. **mislay** and **misplace** (synonyms), **friend** ≠ **enemy/foe** (antonyms).
- Collocations (how words go together), e.g. the adjective **firm** is often used in these collocations: **firm commitment**, **firm grip**, **firm believer**.
- Whether a verb is transitive or intransitive: *catch* is transitive and must have an object, e.g. *He **caught the ball** and threw it back to me;* *laugh* is intransitive and does not need an object, e.g. *She **laughed** when I told her the news.*
- Whether a word is used for people and/or things. In this entry for the adjective **hurtful** in the *Cambridge Advanced Learner's Dictionary* online, we can see that **hurtful** can be used about what someone says or about someone:
- Word class (often as abbreviations **n** noun, **adj** adjective, etc.), and whether a noun is countable or uncountable.
- Information about how words are related to one another through meaning. The *Cambridge Advanced Learner's Dictionary* online allows you to see a visual display of the networks of meaning for a word, as in this display for the adjective **fascinating**. The **Visual Thesaurus** shows related adjectives.

hurtful /'hɜːtful/ *adjective*
causing emotional pain:
That was a very hurtful remark!
How can you be so hurtful?

The adjectives are grouped according to meaning. This can be very useful when you are writing. If you want to vary your use of adjectives, you can look up the related adjectives to see which one(s) most closely express(es) the meaning you need.

Exercises

3.1 Pronunciation. What English words are these?

- 1 /edʒu'keɪʃən/ *education*
- 2 /'paɪspɔ:t/
- 3 /'li:nɪŋ/
- 4 /'lɪbətɪ/
- 5 /rə'vɪʒən/
- 6 /'brʌðə/

3.2 Underline the stressed syllable of these words. Check your answers in your dictionary.

- 1 unique
- 2 elegant
- 3 urgently
- 4 eyebrow
- 5 record (verb)
- 6 thermometer
- 7 extract (noun)
- 8 lifestyle

3.3 Look at the grammar patterns which the Cambridge Advanced Learner's Dictionary gives for these words and then correct the sentences that follow.

1 **supply** /sə'plai/ ▶ verb [T] to provide something that is wanted or needed, often in large quantities and over a long period of time: *Electrical power is supplied by underground cables.* ○ *Three people have been arrested for supplying arms to the terrorists.* ○ *The company has supplied the royal family (= provided them with something they need) for years.* ○ *At the beginning of term, students are supplied with a list of books that they are expected to read.*

Brazil supplies coffee at many countries. *Brazil supplies coffee to many countries.*
 The officer supplied each soldier a map.

2 **deny** /di'naɪ/ verb [T] NOT TRUE 1 to say that something is not true: *He will not confirm or deny the allegations.* ○ [+ that] *Neil denies that he broke the window, but I'm sure he did.* ○ [+ -ing verb] *Neil denies breaking the window.*

The Minister denied to have received any money from the oil company. (two answers)

3.4 Put a tick (✓) if these adjectives can be used about a person, or a thing (which could be an event, an object, a fact, an idea, etc.) or both. Use your dictionary if necessary.

	person	thing		person	thing
sad	✓		damp		
lucky			awkward		
content			compulsory		

3.5 A typical dictionary abbreviation for a noun is (n) and for an adjective (adj). What do you think these abbreviations mean?

(adv) *adverb* (pron) (conj)
 (prep) (UK) noun [C]
 verb [T] noun [U] verb [I or T]

3.6 Over to you

Go to Cambridge Dictionaries Online at <http://dictionary.cambridge.org>, select the Cambridge Advanced Learner's Dictionary and look up the adjective *damp*. Click on the Visual Thesaurus. How many of the words do you know? Choose four words you don't know and look them up. Record them in your notebook.

A**Working out meaning from context**

There are a number of clues you can use to help you understand the meaning of an unfamiliar word.

The context in which the word is used

- Visual clues: for example, a picture in a book or film footage in a TV news broadcast.
- Your own background knowledge about a situation: for example, if you already know that there has just been an earthquake in a big city, then you will find it easy to understand the word 'earthquake' when you hear a news broadcast about it.
- The words around the unfamiliar word: for example, 'Tara picked one tall yellow gladiolus to put in her new vase.' Even if you have never seen or heard the word 'gladiolus', it is clear from the context that it is a type of flower.
- Grammatical clues: for example, it is clear that 'superstitious' must be an adjective in the sentence 'Alejandro is very superstitious and would never walk under a ladder', or that 'gingerly' is an adverb in 'Mike came gingerly down the stairs, trying to avoid all the broken glass.'

**Similarity to other words you already know in English**

A large number of words in English are made up of combinations of other words. You may never have seen the word 'headscarf', for example, but it is easy to work out that it is a scarf worn on the head. [Units 74–76](#) will help you improve your skills in understanding how English uses everyday words to build up new concepts.

Structure

A prefix or suffix may give you a clue: for example, [Units 70–72](#) focus on different aspects of word formation in English and should help you use those clues to make sense of unfamiliar words.

Similarity to a word you know in your own (or some other) language

If your first language is of Latin or of Germanic origin, you will come across many words in English that resemble words in your own language. However, English has taken many words from many other languages too. So make use of any other languages you know.

But remember that some words are false friends – they sound as if they mean the same but in fact they have a different meaning. For example, *gift* in English means *a present* but in German *Gift* means *poison*.

B**Explaining unknown words**

The following expressions are useful when you are trying to explain what a word or expression means:

It's probably something (a bit) like (a chair) ...

It's got to be something you use for (painting pictures / cleaning the kitchen floor) ...

It's a kind of (bird / musical instrument / building) ...

I think it must / could mean ...

Exercises

- 4.1** Look at the following text. Before you read it, see if you know what the underlined words mean.

A tortoise is a shelled reptile famed for its slowness and longevity. The Giant Tortoise of the Galapagos may attain over 1.5 metres in length and have a lifespan of more than 150 years. Smaller tortoises from Southern Europe and North Africa make popular pets. They need to be tended carefully in cool climates and must have a warm place in which they can hibernate.

Which of the underlined words can you guess from the context or using any other clues? First make a guess and then check your guesses in the Answer key.

- 4.2** Use the context to work out what the underlined words mean. Explain them using one or other of the expressions in B on the opposite page.

- 1 Above the trees at the edge of the meadow, a buzzard hangs for a moment on the wind before soaring towards the hills. *I think a buzzard must be a kind of bird.*
- 2 According to some sources, the water vole is one of the most rapidly declining creatures in Britain and a new survey is now being carried out to determine how serious the threat of extinction really is.
- 3 Using a large chisel and a hammer, Jack managed to knock down the old garden wall.
- 4 Kate carried in a delicious chicken and noodle soup in a large tureen and we enjoyed several bowls each.
- 5 We often used to walk up to the cliff top where we would clamber over the farmer's gate and go right to the edge where the view was better.
- 6 Some people get really ratty when they haven't had enough sleep.

- 4.3** Use your knowledge of other basic English words to help you work out the meanings of the underlined words and expressions. Rewrite them using simpler words or explanations for the underlined words and phrases.

- 1 It says on the can that this drink is sugar-free. *this drink doesn't contain sugar*
- 2 I find Caitlin a very warm-hearted person.
- 3 I've been up to my eyes in work ever since I got back from holiday.
- 4 We walked down a tree-lined street towards the station.
- 5 The little boys were fascinated by the cement-mixer.
- 6 More and more shops now have their own special store cards and offer you a discount if you use one of them.

- 4.4** Use your knowledge of prefixes and suffixes to suggest what these phrases mean.

- 1 to redirect a letter *to send it to a different address*
- 2 uncontrollable anger
- 3 pre-dinner drinks
- 4 bi-monthly report
- 5 my ex-boss
- 6 anti-tourist feelings
- 7 to disconnect the telephone
- 8 undelivered letters

Here is some basic vocabulary for different kinds of travel

transport	kinds of vehicle	parts of vehicle	people working with it	associated words
road	car, bus, coach, tram, van, lorry	boot, steering wheel	driver, motorist, mechanic, chauffeur	petrol station, break down, breakdown service
rail	high-speed train, express	sleeping car, buffet, coach	ticket collector, conductor	platform, seat reservation
sea	liner, ferry, yacht	deck, bridge, gangway	captain, steward(ess)	port, cabin, cruise
air	aircraft, jumbo jet, helicopter	cockpit, wings, aisle /aɪjəl/	ground staff, cabin crew, air traffic controller	duty-free shop, terminal, runway, security

B

Journey, trip, travel, voyage

A **trip** is usually shorter than a **journey**. We **had a long journey** by coach from the north to the south of the country. We usually say **business trip** (NOT ~~business journey~~). We **took a trip** / **went on a trip** to the beach last weekend. (**Go on a trip** suggests an organised short excursion, whereas **take a trip** or **have a trip** could be something you do yourselves in your own car.)

Travel is a general word. It is an uncountable noun and a verb. **Travel** broadens the mind. How did you **travel** round Australia? We hitch-hiked.

Voyage means a long journey usually by sea, though this use is quite formal. It is often used in other contexts with 'discovery'. Learning English is a voyage of discovery!

C

Collocations and expressions connected with travel

When we finally got to Tokyo, the weather was bad and we had **a bumpy landing**⁷. Luckily, I don't **get airsick**⁸ but I **had** terrible **jetlag**⁹ for days afterwards.'

¹ delayed for a very long time ² unable to move from ³ paid for me to stay ⁴ promised me a seat if one became available ⁵ punctually ⁶ strong, sudden movements while the plane was in the air ⁷ we landed in a way that was not smooth ⁸ feel sick because of the movement of the plane; more formal = **suffer from airsickness** ⁹ had a feeling of tiredness caused by moving quickly from one time zone to another

Pieter: 'I'd always wanted to **sail** across the Mediterranean, though I was worried I might **get seasick**. Anyway, I volunteered to work as a **crew member on board** a yacht and it was an amazing experience. Everything **ran** very **smoothly**, even when the sea was **rough**¹, and I never **suffered from seasickness**².'

¹ *opp* = a **calm** sea ² less formal = I never **got seasick**

Common mistakes

We don't say 'a travel'. *Travel* is an uncountable noun.

*After we left the airport, we had a long **journey** by car.* (NOT we had a long travel)

Remember, we say *on time*, not *in time* when we mean 'punctually'.

*The train arrived **on time** and I picked her up at the station.* (NOT The train arrived in time)

- 4 What is the missing preposition? 'Let's be friends. I don't want to argue you.'
- 5 How might someone speak at a job interview if they were not very confident?

A

The five senses

The five senses are **sight**, **hearing**, **taste**, **touch** and **smell**. What is sometimes referred to as a 'sixth sense' (or extrasensory perception) is a power to be aware of things independently of the five physical senses - a kind of supernatural sense. The five verbs referring to the senses are modified by an adjective rather than an adverb.

He **looks** dreadful. The trip **sounds** marvellous. The cake **tastes** good. It **felt** strange.
The soup **smelt** delicious.

B

Sight

Yesterday I **glanced** out of the window and **noticed** a policeman **observing** a house opposite through binoculars. I thought I **glimpsed** a man inside the house. Then I **saw** that there was a man **peering** into the window of the same house. I **gazed** at them wondering what they were doing. Suddenly the policeman stopped **staring** through his binoculars. He went to arrest the other man as he started to climb into the house through the window. I realised that I had **witnessed** a crime.

C

Hearing

Scale of loudness:

noiseless → **silent** → **quiet** → **noisy** → **loud** → **deafening**

D

Taste

sweet (honey) **salty** (crisps) **bitter** (strong coffee) **sour** (vinegar) **spicy** (Indian food)

If you say something tastes **hot** it may mean **spicy** rather than **not cold**. If a curry, say, is not particularly hot, then it is **mild**. Food can be **tasty**, but **tasteful** refers to furnishings, architecture or a style of dressing or behaviour. The opposite of both is **tasteless**.

E

Touch

She **poked** me in the ribs with her elbow to wake me up. He **stroked** the cat and **patted** the dog. She **tapped** him on the shoulder. He **grasped** my hand and we ran. She **grabbed** her phone and ran to the bus stop. The thief **snatched** her handbag and disappeared into the crowd. **Press** the button. Please **handle** the goods with great care.

F

Very unpleasant: **stinking foul-smelling putrid musty** [smelling unpleasantly old and slightly damp] **pungent** [smelling very strong, often unpleasantly so]

Pleasant: **fragrant aromatic sweet-smelling perfumed/scented**

G

Sixth sense

Different phenomena which a person with a sixth sense may experience:

telepathy [experiencing someone else's feelings even though you are apart]

premonition [knowing something is going to happen before it occurs]

intuition [instinctive understanding]

déjà vu [an inexplicable feeling that you have already been somewhere or experienced something before]

C Conditions with -ever

The **-ever** suffix means 'it does not matter which ...'. The stress is normally on *ever*.

What's the best way to travel in your country?

However you decide to travel in this country, it'll cost you a lot of money. For example, you'll end up paying at least 70 euros, whichever means of transport you take from the airport to the city centre - train or bus. Public transport is expensive wherever you go here. Whoever wins the next election should try to lower fares.

These sentences can also be expressed using **no matter**. Note the stress.

No matter *how* you decide to travel in this country, it will cost you a lot of money.

No matter *who* wins the next election, they should try to lower fares.

His remarks **resulted in** everyone getting angry. (verb + **in**)

The events had an **outcome** that no one could have predicted. [result of a process or events, or of meetings, discussions, etc.]

The **upshot** of all these problems was that we had to start again. (less formal than outcome) When the election results were announced, chaos **ensued**. (very formal)

A

Verbs of concession

Concession means accepting one part of an idea or fact, but putting another, more important argument or fact against it.

It can be expressed with a conjunction, e.g. **Although** *they were poor, they were independent*, or an adverb, e.g. *He is a bit stupid. He's very kind, nevertheless*, or through verbs like those in the table below.

example	paraphrase and comments
I acknowledge/accept that he has worked hard but it isn't enough.	I agree but ... (accept is less formal than acknowledge)
I admit I was wrong, but I still think we were right to doubt her.	I accept I'm guilty of what I'm accused of.
I concede that you are right about the goal, but not the method.	You have won this point in our argument. (rather formal, used in debates/arguments)

B

Adverbs and other phrases showing contrast

These examples are fairly informal:

It's all very well saying you love dogs, but who will take it for walks if we *do* get one?

These examples are more formal:

Language help

On the other hand means 'that is true *and* this is also true if we look at it from a different viewpoint', e.g. *Life in the country is nice and quiet. On the other hand, you have to go a long way to get to the shops.* **On the contrary** is a rather formal expression which means 'that is *not* true; the opposite is true', e.g. A: *You must be pleased with your exam results.* B: *On the contrary, I thought they would be much better.*

Exercises

- 2 Besides to have a good job, my ambition is to meet someone nice to share my life with.
- 3 Alongside I have many other responsibilities, I now have to be in charge of staff training.

65.5 Rewrite this text using alternatives to 'and' and the words in bold and as many expressions from the opposite page as possible.

To become a successful athlete you will need to be fit ~~and~~^{plus} you will need to train hard every day. **And** you will need a very special type of determination **and** stamina. **And** you will need support from friends and family, financial support **and other things**. And a good coach will help a great deal, motivating you **and** setting goals for you. **And with all those other things** you will need that indefinable thing: talent.

A

Text-referring words

Text-referring words take their meaning from the surrounding text. For example, this sentence in isolation does not mean much: 'We decided to look at the problem again and try to find a solution.' What problem? The words **problem** and **solution** help organise the argument of the text, but they do not tell us the topic of the text. They refer to something somewhere else.

Here are some examples. The word in bold refers to the underlined words.

Pollution is increasing. The **problem** is getting worse each day.

Should taxes be raised or lowered? This was the biggest **issue** in the election. [topic causing great argument and controversy]

Whether the war could have been avoided is a **question** that interests historians.

Let's discuss crime. That's always an interesting **topic**. [subject to argue about or discuss, e.g. in a debate or in an essay]

Punishment is only one **aspect** of crime. [part of the topic]

B

Problem-solution words

Text-referring words are often used with 'problem-solution' types of text, where a problem is presented and ways of solving it are discussed. In the following example, the words in bold concern a problem or a solution. Try to learn these words as a family.

The **situation** in our cities with regard to traffic is going from bad to worse. Congestion is a daily feature of urban life. The **problem** is now beginning to **affect** our national

economies. Unless a new **approach** is found to control traffic, we will never find a **solution** to the **dilemma**.

In the dialogue below, two politicians are arguing. Note how the words in bold refer to parts of the argument.

A: **Your claim** that we're doing nothing to invest in industry is false. We invested £10 billion last year. You've ignored **this fact**.

A: **That argument** is out-of-date in a modern technological society. **Our position** has always been that we should encourage technology.

B: But the investment has all gone to service industries. **The real point** is that we need to invest in our manufacturing industries.

B: But **that view** won't help to reduce unemployment.

The following problem-solution words are grouped in families associated with the underlined key words. The prepositions normally used with them are given in brackets.

situation: state of affairs, **position** (*with regard to*)

problem: difficulty (more formal), **crisis**, **matter**

response (*to*): **reaction** (*to*), **attitude** (*to*), **approach** (*to*)

solution: answer (*to*), **resolution** (*to*), **key** (*to*), **way out** (*of*)

evaluation (*of the solution*): **assessment**, **judgment**

Economically, the government is in a critical **position**. This **state of affairs** is partly a result of the financial **difficulties** currently being experienced globally. Our government's initial **response** to the

situation was to impose higher taxes. This **approach** has not proved to be the **solution** to the problem. Economists' current **assessment** is that this may in fact be making **matters** worse.

66.4 Over to you

- What aspect of your work/studies do you find most interesting?
- Have you ever faced a dilemma? What was it? What was your response to the situation?
- Can you think of an argument in favour of single-sex schools and an argument against? What are your own views on this issue?
- What would you say is the main problem facing your country at the moment? Can you suggest a solution to this problem?

A What are discourse markers?

Discourse markers are expressions which organise, comment on or in some way frame what we are saying. An example is **well**.

A: So you live in Boston? B: **Well**, near Boston.

Well here shows that the speaker is aware he/she is changing the direction of the conversation in some way (not giving the expected 'yes' answer). Another example is how teachers use words like

Right and **OK** to organise what is happening in a classroom:

Right/OK, let's have a look at exercise 3.

B Organising a conversation

Here are some common expressions which organise the different stages of a conversation.

Now, what shall we do next? **So**, would you like to come to the table now, please?

Good, I'll ring you on Thursday, then. **Well then**, what was it you want to talk about?

Now then, I want you to look at this picture. (said by someone in control of the conversation, e.g. a teacher)

Fine/Great, let's meet again next week, then, shall we? (often used to close conversations)

So, where was I? I was telling you about my aunt ... (often used after an interruption or to come back to the main topic or story)

C Modifying and commenting on what you say

In these mini-dialogues, the expressions in bold *modify* or *comment on* what is being said.

A: It's cold, isn't it?

B: Yeah.

A: **Mind you**, it's November, so it's not surprising.
(an afterthought, used like *however*)

A: What's her number?

B: **Let me see**, I have it here somewhere ... (a hesitation - gaining time)

A: It's quite a problem ...

B: **Listen/Look**, why don't you let me sort it out? (introducing a suggestion / an important point)

A: Would you? Thanks a lot.

A: And he said he was go-

B: Well, that's typical!

A: Hang on / Hold on! Let me tell you what he said!
(preventing an interruption)

D Other useful discourse markers

I can't do that. **You see**, I'm not the boss here. (explaining)

He was, **you know, sort of ...** just standing there. (hesitation)

He was wearing this, **kind of / like**, cowboy hat. (not sure of the best way to say something)

So that's what we have to do. **Anyway**, I'll ring you tomorrow. (the speaker thinks the topic can change or the conversation can now close)

It rained all day yesterday. **Still / On the other hand**, we can't complain, it was fine all last week.
(contrasts two ideas or points)

We shouldn't be too hard on him. **I mean**, he's only a child. (making clear what you mean)

In informal spoken language, people often use the letters of the alphabet (usually no more than a, b and c), to list points they want to make.

STELLA: Why aren't you going this evening?

ADAM: Well, **a**) I haven't got any money, and **b**) it's too far anyway.

It is often difficult to hear these expressions when they are used in rapid speech, but when you are in a position to listen in a relaxed way to someone speaking English (for example, if you are not the person being spoken to, or you are listening to informal speech on radio or TV or in a film), it is easier to concentrate on listening for discourse markers.

Exercises

67.1 Underline all the discourse markers in this monologue.

'Well, where shall I start? It was last summer and we were just sitting in the garden, sort of doing nothing much. Anyway, I looked up and ... you see, we have this, kind of, long wall at the end of the garden, and it's ... like ... a motorway for cats. That big fat black one you saw, well, that one considers it has a right of way over our vegetable patch, so ... where was I? I was looking at that wall, you know, daydreaming as usual, and all of a sudden there was this new cat I'd never seen before. It wasn't an ordinary cat at all ... I mean, you'll never believe what it was ...'

67.2 Here are some short dialogues where there are no discourse markers, which would be unusual in real informal conversation. Use markers from the box to fill the gaps. You can use the markers more than once, and more than one answer may be possible.

good I mean hang on well let me see right still listen anyway you know

1 A: Are you a football fan?
B: Well, I like it but I wouldn't say I was a fan.

2 A: I'll take care of these.
B: That's everything.
A: , see you next week.
B: That was a very useful meeting.

3 A: It was last Monday. I was coming home from work. I saw this funny old man approaching me. I stopped him ...
B: I bet it was Jim Dibble!
A: ! Let me tell you what happened first.

4 A: Which number is yours?
B: it's that one there, yes, that one.

5 A: He's looking exhausted.
B: Really?
A: , look at his eyes - he looks so tired.

6 A: What do you mean, 'cold'?
B: , she's not friendly, very distant. Last week I gave her a nice smile and she scowled at me.
A: , what do you expect? I've seen the way you smile at people; it puts them off.

7 A: Money isn't the most important thing in life.
B: , you can't live without it!
A: I suppose that's true.

8 A: What are we going to do?
B: , I've got an idea. Why don't we ask James to help? He's a lawyer.

67.3 Which discourse marker fits best into the sentences? Rewrite the sentences with the markers included.

on the other hand great a, b, c, etc. anyway look now

Anyway,

- Yes, there is a lot of work to do. [^] I must rush now, I'll call you tomorrow.
- There are two reasons why I think he's wrong. People don't act like that, and Paul would certainly never act like that.
- I want you to pay attention, everyone.
- He loses his temper very quickly. He's got a great sense of humour.
- You seem a bit sad today. Let me buy lunch for you to cheer you up.
- A: So I'll pick you up at 6.30. B: See you then.

67.4 Over to you

Choose three expressions that appeal to you from this unit and try to use them in your spoken English. Be careful not to overuse them!

A

Organising a formal text

First / Firstly / First of all, we must consider ...

Next, it is important to remember that ...

Secondly and **thirdly** are also used with first/firstly for lists.

Finally/Lastly, we should recall that ... (coming to the final point on a list)

Turning to the question of foreign policy, ... (changing to a new topic)

Leaving aside the question of pollution, there are also other reasons ... (the writer will not deal with that question here)

In parenthesis, let us not forget that ... (making a point that is a side issue, not part of the main argument)

In summary / To sum up, we may state that ... (listing / summing up the main points)

In sum, the economic issues are at the centre of this debate ... (listing / summing up the main points: much more formal)

In conclusion / To conclude, I should like to point out that ... (finishing the text)

Common mistakes

Lastly is used when making a final point, e.g. *Lastly, let us consider what the future holds.* (NOT ~~At last~~ let us consider ...) **At last** means finally after a long time, e.g. *At last I've finished my essay - what a relief!*

B

Linking words for explaining, exemplifying, rephrasing, etc.

To learn new words properly a lot of recycling is needed; **in other words / that is to say**, you have to study the same words over and over again. (**that is to say** is much more formal)

Some English words are hard to pronounce, **for example / for instance**, 'eighth'.

It might be possible, **say**, to include the parents in the discussion. (similar to **for example**; note the commas before and after; **say** is also common in spoken English)

The Parliament has different committees. **Briefly**, these consist of two main types. [the explanation will be short and not comprehensive]

She is, **so to speak / as it were**, living in a world of her own. (makes what you are saying sound less definite/precise; **as it were** is more formal)

C

Referring backwards and forwards in the text

The following points will be covered in this essay: ... (used to introduce a list)

It was stated **above/earlier** that the history of the USA is ... [earlier in the text]

See page 238 for more information. [go to page 238]

Many writers have claimed this (see **below**). [examples will be given later in the text]

A full list is given **overleaf**. [turn the page and you will find the list]

For **further** details/discussion, see Chapter 4. [more discussion/details]

May I **refer you to page 3** of my last letter to you? [May I ask you to look at / read; *fml*]

With reference to your email of 12th March, ... (often used at the beginning of a letter or email to link it with an earlier text; *fml*)

| 5 With reference to ... | <input type="checkbox"/> | e to finish off |
| 6 See above ... | <input type="checkbox"/> | f as an aside / as a secondary issue |

68.2 Fill the gaps with typical linking words or phrases used in writing. The first letter of each phrase/word is given.

1 *Firstly* _____, it is important to understand why people commit crimes; 2*i* _____, what are the motives which make people do things they would never normally do? 3*F* _____, a young man steals clothes from a shop - does he do it because it is an exciting risk? 4*N* _____, it is essential to consider whether punishment makes any difference, or is it just, 5*a* _____, a kind of revenge? 6*L* _____, how can we help victims of crime? 7*I* _____, how can we get to the roots of the problem, rather than just attacking the symptoms?

68.3 Which linking word or phrase(s) ...

- is based on the verb 'to say'? *say (meaning 'for example')*
- is based on the verb 'to follow'?
- contain the word/syllable 'sum'? (*three answers*)
- is a form of the word 'far'?
- contains something you find on trees?

68.4 Write a short formal email to the Editor of a newspaper about a report in the paper the previous week that a local hospital is going to close. You think the hospital should not close because:

- The nearest other hospital is 50 kilometres away.
- 200 people work at the hospital; they will lose their jobs.
- The hospital makes an important contribution to the local economy.
- It is the only hospital in the region with a special cancer unit.
- It is being closed for political reasons, not genuine economic ones.

Try to include as many as possible of these linking words and phrases:

with reference to firstly, secondly, thirdly, etc.
 leaving aside the following to sum up
 that is to say finally

Common noun suffixes

-er / / is used for the *person* who does an activity, e.g. **writer**, **painter**, **worker**, **shopper**, **teacher**. You can use **-er** with a wide range of verbs to make them into nouns.

Sometimes the **-er** suffix is written as **-or** (it is still pronounced / /). It is worth making a special list of these words as you meet them, e.g. **actor**, **donor** [person who donates something], **operator**, **sailor**, **supervisor** [person whose job is to make sure that other people do their jobs correctly, safely, etc.].

-er/-or are also used for *things* which do a particular job, e.g. **pencil sharpener**, **bottle opener**, **grater**, **projector**, **stapler**, **coat hanger**.

-er and **-ee** (pronounced /i /) can contrast with each other meaning ‘person who does something’ (**-er**) and ‘person who receives or experiences the action’ (**-ee**), e.g. **employer/employee** /em'plɔɪj'i:/, **sender**, **addressee**, **payee** (e.g. of a sum of money).

-tion/-sion/-ion are used to form nouns from verbs, e.g. **complication**, **pollution**, **reduction**, **alteration**, **donation**, **promotion**, **admission**, **action**.

-ist [a person] and **-ism** [an activity or ideology] are used for people’s politics, beliefs and ideologies, and sometimes their profession (compare with **-er/-or** professions above), e.g. **Marxist**, **typist**, **physicist**, **terrorist**, **Buddhism**, **journalism**.

-ist is also often used for people who play musical instruments, e.g. **pianist**, **violinist**, **cellist**.

-ness is used to make nouns from adjectives, e.g. **goodness**, **readiness**, **forgetfulness**, **happiness**, **sadness**, **weakness**. Note what happens to adjectives that end in **-y**.

B

Adjective suffixes

-able/-ible / bl/ with verbs means ‘can be done’, e.g.

drinkable **washable** **readable** **forgivable** **edible** [can be eaten] **flexible** [can be bent]

C

Verbs

-ise (or **-ize**, which is more common in American English) forms verbs from adjectives, e.g. **modernise** [make modern], **commercialise**, **industrialise**, **computerise**.

D

Other suffixes that can help you recognise the word class

- ment:** (nouns) excitement, enjoyment, replacement [the act of putting sb or sth in the place of sb or sth else]
- ity:** (nouns) flexibility [ability to change easily according to the situation], productivity, scarcity
- hood:** (abstract nouns, especially family terms) childhood, motherhood, brotherhood
- ship:** (abstract nouns, especially status) friendship, partnership, membership
- ive:** (adjectives) active, passive (in language, the passive is when the receiver of an action becomes the subject, e.g. *The bank was robbed*), productive [producing a positive large amount of something]
- al:** (adjectives) brutal, legal [related to or which follows the law], (nouns) refusal, arrival
- ous:** (adjectives) delicious, outrageous [shocking and morally unacceptable], furious [very angry]
- ful:** (adjectives) hopeful, useful, forgetful
- less:** (adjectives) useless, harmless [which cannot hurt or damage anyone or anything], homeless
- ify:** (verbs) beautify, purify, terrify [cause someone to be extremely afraid]

The informal suffix **-ish** can be added to most common adjectives, ages and times to make them less precise, e.g. She’s **thirtyish**. He has **reddish** hair. Come about **eightish**.

Language help

Adding a suffix can sometimes change the stress in a word. Be sure to check in a dictionary.

Examples:

A

Negative prefixes on adjectives

Prefixes are often used to give adjectives a negative or an opposite meaning. For example, fair/**un**fair, experienced/**in**experienced and similar/**dis**similar are opposites. Other examples are '**unn**atural', '**in**edible', '**dis**organised'. Unfortunately, there is no easy way of knowing which prefix any adjective will use to form its opposite.

in- becomes **im-** before a root beginning with 'm' or 'p', e.g. **im**mature, **im**patient, **im**moral, **im**possible, **im**probable. Similarly **in-** becomes **ir-** before a word beginning with 'r', e.g. **ir**regular, **ir**responsible, **ir**replaceable, and **il-** before a word beginning with 'l', e.g. **il**legal, **il**legible, **il**literate.

Language help

The prefix **in-** (and its variations) does not always have a negative meaning - often it gives the idea of inside or into, e.g. **in**ternal, **im**port, **in**sert, **in**come.

B

Negative prefixes on verbs

The prefixes **un-** and **dis-** can also form the opposites of verbs, e.g. tie/**un**tie, appear/**dis**appear.

These prefixes are used to reverse the action of the verb. Here are some more examples: **dis**agree, **dis**approve, **dis**believe, **dis**connect, **dis**courage, **dis**like, **dis**prove, **dis**qualify, **un**bend, **un**do, **un**dress, **un**fold, **un**load, **un**lock, **un**veil, **un**wrap, **un**zip.

C

Some words with prefixes use a hyphen. Check in a dictionary if you're not sure.

B Suffixes in abstract nouns

Certain suffixes (see [Unit 70](#)) are used frequently in abstract nouns. The most common are **-ment**, **-ion**, **-ness** and **-ity**. The suffix **-ion** sometimes becomes **-tion**, **-sion**, **-ation** or **-ition**. The suffixes **-ment** and **-ion** are usually used to make verbs into abstract nouns. The suffixes **-ness** and **-ity** are added to adjectives.

Here are some examples of abstract nouns using those suffixes.

74 Compound adjectives

A Form and meaning

A compound adjective has two parts. It is usually written with a hyphen, e.g. **well-dressed**, **never-ending**, **sky-blue**. Its meaning is usually clear from the combined words. The second part of the adjective is often a present participle (ending in *-ing*) or past participle (ending in *-ed*, except for irregular verbs).

Language help

Some compound adjectives use a hyphen before a noun but not after a verb (e.g. *a well-dressed man* but *He is always well dressed*).

Which of the adjectives from this unit could you use to describe yourself or your friends or members of your family?

75 Compound nouns 1: noun + noun

A What are compound nouns?

A compound noun is a fixed expression which is made up of more than one word and functions as a noun. Such expressions are frequently combinations of two nouns, e.g. **car park**, **human being** [person], **science fiction** [fiction based on some kind of scientific fantasy]. A number of compound nouns are related to phrasal verbs and these are dealt with in [Unit 76](#).

B How are compound nouns written?

If you understand both parts of the compound noun, the meaning will usually be clear. Compound nouns are usually written as two words, e.g. **tin opener** [an opener for tins], **bank account** [an account in a bank], **pedestrian crossing** [a place for people to cross a road], but sometimes they are written with a hyphen instead of a space between the words, e.g. **self-control** [control over your own emotions and reactions]. Sometimes they may be written as one word, e.g. **earring**, **trademark** [the symbol of a product], **babysitter** [someone who stays with a baby/child while parents are out].

Note that there are no strict rules about which compound words should be written in which way. There is a lot of variation even between dictionaries.

C Stress in compound nouns

Usually the main stress is on the first part of the compound but sometimes it is on the second part. In the common compound nouns below, the word which contains the main stress is underlined.

<u>alarm</u> clock	<u>contact</u> lens	<u>mineral</u> water	<u>voice</u> mail
<u>blood</u> donor	<u>credit</u> card	<u>package</u> holiday	<u>wind</u> screen
<u>burglar</u> alarm	<u>heart</u> attack	<u>steering</u> wheel	<u>wind</u> screen wiper
<u>bus</u> stop	<u>light</u> bulb	<u>tea</u> bag	<u>youth</u> hostel

D Grammar of compound nouns

Compound nouns may be countable, uncountable or only used in either the singular or the plural. The examples given in C are all countable compound nouns. Here are some examples of common uncountable compound nouns.

What are binomials?

Binomials are expressions (often idiomatic) where two words are joined by a conjunction (usually 'and'). The order of the words is normally fixed. For example:

odds and ends: small, unimportant things, e.g. Let's get the main things packed - we can do the **odds and ends** later. (NOT ends and odds)

give and take: a spirit of compromise, e.g. Every relationship needs a bit of **give and take** to be successful.

You can often tell something is a binomial because of the sound pattern, which may be a repetition of the same first sound or a rhyme.

Tears are **part and parcel** of growing up. [an important part of / belong to]

The boss was **ranting and raving** /'reɪvɪŋ/ at us. [shouting / very angry]

The old cottage has gone to **rack and ruin**. [is ruined / has decayed]

He's so **prim and proper** at work. [rather formal and fussy]

The hotel was a bit **rough and ready**. [poor standard or quality]

She has to **wine and dine** important clients. [entertain / take out to restaurants]

They stole my wallet. I was left **high and dry**, with no money. [in a very difficult situation]

B

Pairs of near synonyms

At other times, the clue is that the words are near synonyms.

You can **pick and choose** - it's up to you. [have a wide choice]

My English is progressing in/by **leaps and bounds**. [big jumps]

It's nice to have some **peace and quiet** now that the children have left. [a peaceful/calm situation]

The doctor recommended some **rest and recreation** / **R and R**. [relaxation]

First and foremost, you must work hard. [first and most importantly]

C

Binomials composed of grammar words

Many grammar words combine to form binomials.

There are cafés **here and there** along the sea front. [scattered round / in different places]

We've had meetings **on and off / off and on**. [occasionally]

I've been running **back and forth / to and fro** all day. [to and from somewhere]

She's better now, and **out and about** again. [going out]

She ran **up and down** the street. [in both directions]

Language help

Your language probably has many binomials. Check that the ones which look similar in English have the same word order as your language. These three are very neutral binomials and can be used in formal or informal situations. Try translating them.

an old black and white photograph
Ladies and gentlemen, your attention, please!
She ran back and forth.

D

Binomials linked by words other than and

You've got your sweater on **back to front**. [the wrong way]

He won't help her - she'll have to **sink or swim**. [survive or fail]

Slowly but surely, I realised the boat was sinking. [gradually]

Sooner or later, you'll learn your lesson. [sometime in the future]

She didn't want to be just friends - it had to be **all or nothing**.

Well, I'm sorry, that's all I can offer you - **take it or leave it**.

It's about the same distance as from here to Dublin, **give or take** a few miles. [perhaps a mile or two more, or a mile or two less]

Exercises

77.1 Here is a list of words that can combine to form binomials. Use similarities in sound to join them with *and*. Look at A opposite to check that you have the right word order and meaning. Use the binomials to fill the gaps in the sentences which follow.

prim dine high parcel ruin rough dry
 rack part ready proper rave rant wine

prim and proper

- I was left and, with no one to help me.

- My hosts and me at the best restaurants.
- That old house in the country has gone to and; nobody looks after it now.
- Working hard and being very disciplined is and of training to be a top athlete.

77.2 Use binomials from B and C to rewrite the words in bold. Your new sentences will often sound more informal than the original ones.

- I'm hoping to get some **time without noise or interruption** at the cottage I've rented.
peace and quiet
- Most importantly of all**, I want to get a good, steady job.
- I've bumped into Karen **occasionally** but I don't meet her regularly.

- Robin's office is on the next floor to mine, so we have to go **from one floor to another** all day.

77.3 Some of the binomials in these sentences are in the right order and some are wrong. Correct the wrong ones.

wrong: back and forth

- Slowly but surely my English got better and soon I felt fairly fluent.

77.4 These binomials do not have *and* in the middle. What do they have? Check the opposite page if you are not sure.

- | | | |
|--------------------------|--------------------|-----------------------|
| 1 sooner <i>or</i> later | 3 back front | 5 slowly surely |
| 2 all nothing | 4 sink swim | 6 give take |

Learning and remembering multi-word expressions

Fixed expressions, also known as idioms, often have meanings that are not clear or obvious. For example, the expression **to feel under the weather**, which means ‘to feel unwell’, is typical. The words do not tell us what it means, but the context usually helps.

Think of multi-word expressions as units, just like single words; always record the whole expression in your notebook, along with information on grammar and collocation, e.g. This tin opener **has seen better days**. [it is rather old and broken down; usually of things, always perfect tense form]

Multi-word expressions of this type are often rather informal and include a personal comment on the situation. They are sometimes humorous or ironic. As with any informal words, be careful how you use them. Never use them just to sound ‘fluent’ or ‘good at English’. In a formal situation with a person you do not know, don’t say:

‘How do you do, Mrs Watson? Do **take** the **weight off your feet**.’ [sit down]

Instead say: ‘Do sit down’ or ‘Have a seat.’

B

Organising multi-word expressions

Multi-word expressions can be grouped in a variety of ways. It is probably best to use whichever way you find most useful to help you remember them.

Grouping by grammar

get (hold of) the wrong end of the stick [misunderstand]	}	verb + object
pull a fast one [trick/deceive someone]		
poke your nose in(to) [interfere]		
be over the moon [extremely happy/elated]	}	verb + prepositional phrase
feel down in the dumps [depressed/low]		
be in the red [have a negative bank balance]		

Grouping by meaning, e.g. expressions describing people’s character/intellect

He’s **as daft as a brush**. [very stupid/silly]

She **takes the biscuit**. /'bɪskɪt/ [is the extreme / the worst of all]

They’re **a pain in the neck**. [a nuisance / a difficult person]

Little Sam’s **as good as gold**. [behaves very well - usually used about children]

Grouping by a verb or other key word, e.g. expressions with **make**

Why do you have to **make a meal out of** everything? [exaggerate the importance of everything]

I think we should **make a move**. It’s gone ten o’clock. [go/leave]

Most politicians are **on the make**. I don’t trust any of them.

[wanting money/power for oneself]

I’m afraid I’m **making heavy weather** of my essay. [making slow and difficult progress]

C

Grammar of multi-word expressions

It is important when using these expressions to know just how flexible their grammar is. Some are more fixed than others. For instance, **barking up the wrong tree** [be mistaken] is always used in continuous, not simple form, e.g. I think you’re **barking up the wrong tree**.

(NOT I think you ~~bark up~~ the wrong tree.)

A good dictionary may help, but it is best to observe the grammar in real examples.

Note how [Units 89-94](#) group expressions in different ways.

For more information on multi-word expressions, see *English Idioms in Use* by Michael McCarthy and Felicity O’Dell.

Vowels

The phonetic transcription is provided for some of the words below. Check you understand the symbols, which are used by most good dictionaries (see page 258).

To master English pronunciation it is helpful to learn the 22 phonemic symbols for English vowel sounds. These are important because the vowel letters can be pronounced in many different ways:

a cat /kæt/ about /ə/ wander /v/ last /lɑː/ late /eɪ/
i alive /aɪ/ give /ɪ/
u put /ʊ/ cut /ʌ/ cupid /juː/
ie fiend /iː/ friend /e/ science /aɪə/
ei rein /eɪ/ receive /iː/ reinforce /iː/

e met /e/ meter /iː/ /ə/
o sorry /v/ go /eʊ/ love /ʌ/ to /uː/
ea head /e/ team /iː/ react /iːkʌ/
ou our /aʊ/ route /uː/ would /ʊ/
oo cool /uː/ cook /ʊ/ coopt /əʊt/

B

Silent letters

The letters below in **bold** are silent in the examples:

p psychic /'saɪkɪk/ **psychiatry** **pneumatic** receipt **pseudonym** **psychology**

storm **tart**
(unless followed by a vowel) **mother** /'mʌðə/ **sister**
teacher **water**

Language help

The letter 'r' is not silent in some varieties of English, for example American, Irish, Scottish.

C

Changing stress

Some two-syllable words in English have the same form for the noun and the verb. The stress is on the first syllable of the word when it is a noun and the second syllable when it is a verb, e.g. *Wool is a major Scottish export. Scotland exports a lot of wool.* Here are some other words like this.

conduct	conflict	contest	decrease	suspect	record
desert	import	increase	insult	transfer	reject
permit	present	progress	protest	transport	upset

Multi-syllable words in English tend to put their main stress on the third syllable from the end, e.g. *photograph, telephone, arithmetic*. As a result, as a long word adds suffixes its word stress does not stay on the same syllable, e.g. *photographer, telephony, arithmetical*. Note that, although this rule is useful, it does have plenty of exceptions.

Common mistakes

These words are often mispronounced.

apostrophe /ə'pɒstrəfi/ catastrophe /kə'tɒstrəfi/
 recipe /'resɪpi/ vegetables /'vedʒtəblz/
 ought /ɔːt/ muscle /'mʌsəl/ cupboard /'kʌbəd/
 sword /'sɔːd/ interesting /'ɪntrəstɪŋ/

A

What is formality?

Formality is all about your relationship with the person you're speaking or writing to. If you use formal language, it may be because you wish to show respect, politeness, or to put yourself at a distance (for example, 'official' language, or academic language). Informal language can show friendliness, equality or a feeling of closeness and solidarity with someone. You should *never* use informal language just to sound fluent or clever.

B

Scales of formality

Some groups of words can be put on a scale from formal to neutral to informal.

formal	neutral	informal
offspring abode / residence goodbye go amiss	children house / flat / home bye go wrong	kids place bye-bye / cheerio go pear-shaped

C

Words of Latin and Greek origin

Many longer words that come from Latin and Greek are quite formal. Here are some with their neutral and/or informal equivalents, which are often shorter words.

I'll go and email Kieran **immediately**. [neutral equivalent: **at once**; informal equivalent: **right away**]

The researchers **utilise** the most modern equipment. [neutral equivalent: **use**]

This problem **frequently occurs** with older software. [neutral equivalent: **often happens**]

The study **established** a link between stress and ill-health. [neutral equivalent: **showed/proved**]

The government **attempted** to reduce unemployment by supporting new businesses. [neutral equivalent: **tried**]

Physicists **seek** answers to **fundamental** questions about the universe. [neutral equivalents: **search for / look for; basic**]

D

Formal phrases

Many phrases are typical of formal contexts such as academic or official language.

What should the government do **in terms of**¹ helping young people? Students, **in particular**², need support to complete their studies, **on account of**³ the high fees and living costs they have to meet.

Should students be given financial support **on the basis of**⁴ their family circumstances? And how should the government act **in relation to**⁵ youth unemployment?

The definitions give less formal or neutral equivalents.

¹ as regards, about ² especially ³ because of ⁴ according to ⁵ as regards, about, in connection with

E

Formality in notices, instructions, etc.

You will often see rather formal words in signs, notices and directions. Make sure you know the meaning of the words used so that you could tell someone what the notice says using less formal words.

THIS STAIRWAY IS CLOSED UNTIL FURTHER NOTICE.	DO NOT ALIGHT WHILE THE BUS IS IN MOTION.	DO NOT ADDRESS THE DRIVER UNLESS THE BUS IS STATIONARY.
--	--	--

LIFT CAPACITY SIX PERSONS OR MAX 500 KILOS	Articles deposited must be paid for in advance.	We regret we no longer accept cheques.	Tickets must be purchased before boarding the train.

Over to you

How do you mark whether a word is formal or informal in your vocabulary notebook? If possible, compare your way with someone else's.

See also [Unit 96](#) for other formal and informal words and expressions.

A Monosyllabic informal words

Informal versions of words are often short and monosyllabic (consist of one syllable).

The **cops** have arrived. [police]

The house has two **loos**. [toilets]

It cost me ten **quid**. [pounds]

What's on **telly** tonight? [television]

C Slang

Slang is extremely informal language. Slang helps to make speech vivid, colourful and interesting but it can easily be used inappropriately. Slang is mainly used in speech but it is also often found in the popular press and in literature. Slang changes very quickly, so some words go out of fashion, but you may meet them in novels and films. Some slang expressions may cause offence to some people. Here are some examples you may hear or read.

Expressions for money: **dosh readies moolah**

Expressions for food and drinks: **nosh grub sarnie** [sandwich] **cuppa** [cup of tea]

People obsessed with computers or other equipment: **nerd geek anorak**

Jobs: **quack** [doctor] **shrink** [psychiatrist] **the old bill** [the police] **squaddie** [soldier of a low rank]

Language help

If you are interested in slang, you can find more examples in films or in the tabloid press but it is probably safest to keep it in your passive rather than your active vocabulary.

Exercises

96.1 Make this conversation more *informal* by changing some of the words. Refer to the opposite page if necessary.

- JIM: Annie, can you lend me ten pounds? *quid*
ANNIE: What for?

ANNIE: Can't you telephone them and say you can't come?
JIM: Well, I could, but my mobile phone's not working, and I want to go because they always have lots of food, and the refrigerator at our flat is empty, as usual.
ANNIE: Can't you go by underground? Anyway, you're in luck, I've got some money, so here you are.

96.2 Replace the underlined words with more formal equivalents.

- 2 It's a nice day. Let's have a barbie and eat in the garden.

96.5 Over to you

Which English words do you know that are very informal or are slang? Where did you read or hear them? If possible, compare with a friend or classmate.

A

As ... as

As ... as similes are easy to understand. If you see the phrase **as dead as a doornail**, you don't need to know what a doornail is, simply that the whole phrase means 'totally dead'. But remember fixed similes are usually informal and often humorous. Those marked * are negative and could offend. Use all these expressions with care and keep them generally as part of your receptive vocabulary.

Creating a picture in your mind can often help you remember the simile:

as **blind** as a **bat***

as **thin** as a **rake***

as **strong** as an **ox**

as **quiet** as a **mouse**

Some can be remembered as pairs of opposites.

as **heavy** as **lead** /led/ ≠ as **light** as a **feather** as **drunk** as a **lord*** ≠ as **sober** as a **judge**

as **black** as **night** ≠ as **white** as **snow** (particularly used in fairy tales)

Some can be remembered by sound patterns.

Advice and warnings

proverb	paraphrase
Don't count your chickens before they hatch.	Don't depend on something happening, because it may not.
Don't put all your eggs in one basket.	Don't invest all your efforts or attention in just one thing.
Never judge a book by its cover.	Don't judge people/things by their outward appearance.
Never look a gift-horse in the mouth.	Never refuse good fortune when it is there in front of you.
Take care of the pennies and the pounds will take care of themselves.	Take care of small sums of money and they will become large sums.
We'll cross that bridge when we come to it.	We'll deal with that problem when it actually happens.

B

Key elements

Proverbs can be grouped by key elements, for example, animals and birds.

When the **cat's** away, the **mice** will play. [people will take advantage of someone else's absence to behave more freely]

You can lead a **horse** to water but you can't make it drink. [you can try to persuade someone, but you can't force them]

One **swallow** doesn't make a summer. [one positive sign does not mean that all will be well; a swallow is a bird that returns to Britain in late spring]

C

Visualising

As with learning all vocabulary, visualising an element of it often helps.

There's no smoke without fire. / Where there's smoke, there's fire. [rumours are usually based on some degree of truth]

People who live in glass houses shouldn't throw stones. [don't criticise others' faults if you suffer from them yourself]

Too many cooks spoil the broth /*brɒθ*/. [too many people interfering is a bad way of doing things; broth = a kind of soup]

Many hands make light work. [a lot of people helping makes a job easier]

Language help

Speakers tend to use proverbs to comment on a situation, often at the end of a true story someone has told, or in response to some event.

Exercises

98.1 Find proverbs on the opposite page that you could use in these situations.

- Someone says they have just been offered a free two-week holiday, but are hesitating whether to take up the offer. *Never look a gift-horse in the mouth.*

- Someone says they can't be bothered applying to different universities and will just apply to one.
- Three different people have made different arrangements for the same meeting, and so everyone comes at different times and the result is total confusion.
- Someone is worried about a journey you are making with them and keeps saying things like 'What'll happen if the plane is delayed?', 'What'll we do if our luggage gets lost?'

98.2 Answer these questions about the proverbs on the opposite page. Give an explanation for your answer.

- Another common proverb is **Absence makes the heart grow fonder**. Which proverb has an opposite meaning?
- Which two proverbs warn against anticipating the future?
- Another common proverb is **A bird in the hand is worth two in the bush**. Which proverb has a similar meaning?

98.5 Over to you

Try translating some proverbs word for word from your language into English. Then, if you can, ask a native speaker if they can tell you an English proverb with the same or a similar meaning.

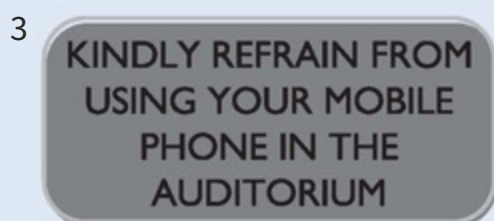

Signs and notices in English often use words and expressions that are rarely seen in other contexts. Look at the signs and notices below with their 'translations' into more everyday English.

99.5 Over to you

Look at the notices in your own language that you see around you every day. How would they be expressed in English? Try to find out, if they are not included in this unit. Also, look out for any signs in English in non-English-speaking countries. See if you can work out what they mean.

A

The grammar of headlines

Newspaper headlines try to catch the reader's eye by using as few words as possible.

- Grammar words like articles or auxiliary verbs are often left out, e.g. EARLY CUT IN INTEREST RATES FORECAST.
- A present simple form of the verb is used, e.g. MAYOR OPENS HOSPITAL.
- The infinitive is used to express the fact that something is going to happen in the future, e.g. PRESIDENT TO VISIT FLOOD AREAS.

B

Short dramatic words

Newspapers usually prefer words that are shorter and sound more dramatic than ordinary English words. The words marked * can be used either as nouns or verbs.

newspaper word	meaning	newspaper word	meaning
aid*	help	key (adj)	essential, vital
axe*	cut, remove	link*	connection

drive*	campaign, effort	talks (noun)	discussions
gems (noun)	jewels	threat	danger

hit (verb)	affect badly	wed (verb)	marry

Newspaper headlines often use abbreviations, e.g. **PM** for 'Prime Minister', **MP** for 'Member of Parliament'. (See [Unit 78](#) for more abbreviations.)

C

Jokes in headlines

Some newspapers also enjoy making jokes in their headlines. They do this by playing with words or punning, e.g. a wet open-air operatic concert was described as:

**TORRENTIAL RAIN
IN MOST ARIAS**

An announcement that a woman working at the Mars chocolate company had got an interesting new job was:

**WOMAN FROM MARS TO BE
FIRST BRITON IN SPACE**

Note: the word 'Briton' is almost exclusively found in newspapers.

100.5 Over to you

Look out for headlines in English in newspapers or on websites. Try to explain them in ordinary English, and see if you can find more examples of jokes.

A English in the USA

English in the USA differs from British English. Pronunciation is the most striking difference but there are also differences in vocabulary and spelling as well as some differences in grammar. Americans say *the fall*, while British English speakers say *autumn*; American speakers say *on the weekend*; British English prefers *at the weekend*. Yet, generally, British and American speakers have little difficulty in understanding each other.

B American English spelling

American English spelling is usually simpler. For example, British English words ending in **-our** and **-re** end in **-or** and **-er** in American English, e.g. **colour/color**, **centre/center**. Many verbs ending in **-ise** in British English end in **-ize** in US English (**realise/realize**). There are differences in individual words too, e.g. British **jewellery** is **jewelry** in American English.

The most picturesque parts of Cambridge are beside the river.
Cambridge is one of England's most historic towns.
The town could hardly be called spacious as most of its streets are very narrow.
Some of the eighteenth-century buildings are particularly elegant.

The most magnificent building in the town, in my opinion, is the Pepys Library. Cambridge is very lively at night because so many young people live there. When the university is on vacation the town can suddenly seem quite deserted. The market is particularly bustling on Saturdays. The shopping centre always seems to be packed with people. We are lucky in that nowhere in the town is filthy; everywhere is quite clean. Some of the suburbs have become quite run-down in recent years.

Unit 64

64.1 Possible answers and comments:

- 1 I accept (or more formal: I acknowledge) that you weren't solely to blame, but you must take *some* responsibility. (**Accept** and **acknowledge** are most suitable here since the speaker is prepared to agree with one aspect but wants to go on to make another point to support his/her case.)
- 2 OK, I admit I was wrong, you were right; he *is* a nice guy. (This seems to be a situation where somebody is accusing someone of trying to get them to say they were wrong. **Admit** is ideal in this case.)
- 3 The company acknowledges that you have suffered some delay, but we do not accept liability. (**Acknowledge** is perhaps best here; it is often used in formal, legalistic situations like this because it simply says 'We understand your message, but we do *not* necessarily accept any liability/blame/responsibility'; **admit** might suggest the company *does* accept legal responsibility; **accept** is also possible though less formal.)
- 4 She accepted/conceded that we had done all we could, but she was still not content. (**Concede** usually suggests an argument or debate where people might 'give' small points to one another while still holding on to their basic position, and would seem to be a likely choice here; **concede** here suggests she did not really want to say it.)

Unit 65

65.1 *Suggested answers and comments:*

- 2 In addition to / As well as / Apart from / Besides
(The choice is quite wide, but, depending on which one she chooses for 2, the writer would probably then choose a different one for 4, to avoid repeating herself.)
- 3 etc. / and so on
(**etc.** is slightly more formal than **and so on**, and the writer may want to avoid sounding too informal.)
- 4 in addition to / as well as / apart from / besides
- 5 Furthermore / Moreover / Likewise
(**furthermore/moreover** add her previous experience on to the rest; **likewise** not only adds the information but suggests it is of equal value to the other experience she has mentioned.)
If she wanted to use **what's more**, the writer would probably write it in full as **what is more**, so as not to sound too informal. However, **what's more** / **what is more** can often sound a little abrupt and argumentative (as if you're trying very hard to convince the reader) and might sound just a bit too strong here.
Equally would not be suitable here, as it is best used when arguing points and presenting opinions (trying to convince someone of the equal value of a point added on to other points).

68.4 Sample letter:

Dear Editor,

With reference to the article in your newspaper about the closure of Newton Hospital, I would like to express my strong opposition to the proposal, for **the following** reasons. **Firstly**, the nearest other hospital is 50 kilometres away. **Secondly**, 200 people work at the hospital and they will lose their jobs and the whole region will suffer, **that is to say** the hospital makes an important contribution to the local economy. **Finally**, it is the only hospital in the region with a special cancer unit. But **leaving aside** the economic and medical questions, the hospital is obviously being closed for political reasons, and this is quite wrong.

To sum up, the closure of our hospital would be a disaster both for the people and for the economy of this region.

Yours sincerely,

Anna Green
